The Rollamo 1941

We present to the student body a yearbook that we have endeavored to make more interesting and different from those of the past.

We hope that the various changes and rearrangements will meet with your whole-hearted approval, and that you will enjoy pleasant reminiscences as you peruse its contents.

*With wondrous eyes
they perceive
A shovel of earth upturned
That chemistry and
scientific knowledge
Will not evade the stu-
dent of this college.*

To You

*He, like Samson, suffered greatly
when his locks were shorn;
For the Sophomore "Delilahs"
were not tender in the efforts
to deform.*

A Word before We Begin . .

The Freshman is a beridden soul whose every action is held in approbrium by all. His life is a hard and weary one, and dictatorial domination keeps him in constant fear of all but his lowly colleagues.

So to this poor unfortunate fellow who has weathered the storm of mental and physical privation, we dedicate this book as a measure of solace and signification that nothing but memories remain of that fateful year.

MINE EXPERIMENT STATION

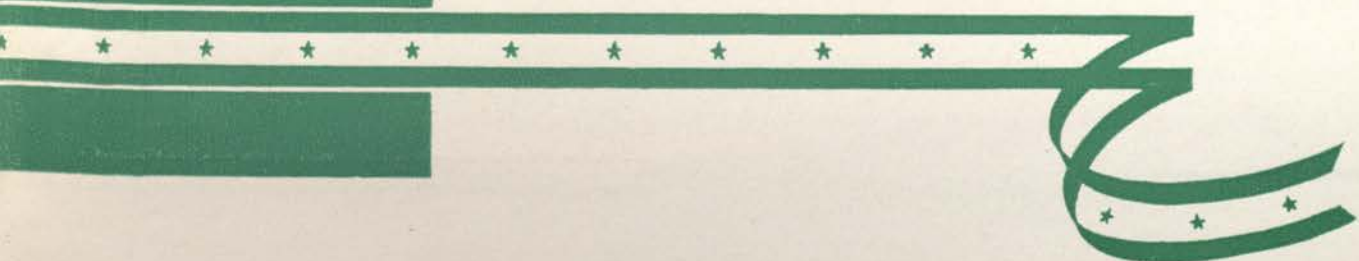

The College

M. S. M. is a technical institution sponsored by the State of Missouri for the dissemination of technical information to all those who wish to utilize its educational facilities. It is one of the foremost engineering colleges in the country and prepares the student for the engineering problems encountered as he follows his designated profession.

DIRECTOR

Dr. Chedsey has ably directed the fortunes of the Missouri School of Mines and Metallurgy during the past four years. His guiding hand has been instrumental in the enlargement of M. S. M.'s educational facilities, and through his energetic endeavors we may feel certain that our college will remain one of the best engineering schools in the country.

REGISTRAR

Dr. Armsby's association with the Missouri School of Mines has been one of the main factors in its rapid growth and recognition. Due to his untiring efforts, the enrollment has increased steadily; and his sincere energy as a student adviser has earned him the respect of the student body.

The educational program of M. S. M. has been augmented through the ceaseless and invaluable service of the administrative body.

The increased educational facilities and the progressive growth of the student body are significant examples of their notable work.

Faculty

ARMSBY, H. H., B. S., C. E., Registrar, Student Advisor.
 BARLEY, J. W., A. B., A. M., Ph. D., Professor of English.
 BERTRAM, W. B., LL. B., Instructor in Military Science and Tactics.
 BLACK, C. H., B. S., Professor of Drawing.
 BOYD, CLARK E., A. B., A. M., Instructor in English.
 BUTLER, J. B., B. S. in C. E., B. S. in Educ, C. E., M. S. in C. E., Professor of Civil Engineering.
 CHEDSEY, W. R., E. M., Doctor of Engineering, Director.
 CLAYTON, C. Y., B. S., Met. Engr., Professor of Met. Engr. and Ore Dressing.
 CLOUD, P. E., B. S., Ph. D., Instructor in Geology.
 CONRAD, F. H., B. S. in Chem. E., Ph. D., Associate Prof. of Chem. Engr.
 CRAWFORD, I. C., Jr., B. S. in C. E., M. S. in C. E., Instructor in Civil Engr.
 COLEMAN, J. R., B. S. in Pet. Engr., Instructor in Pet. Engr.
 DAY, T. G., B. A., M. A., Ph. D., Asst. Prof. of Organic Chemistry.
 DECKER, E. E., B. S. in Mining, Instructor in Civil Engr.
 DENNIE, F. E., B. S., C. E., Associate Professor of Mathematics.
 DOLL, W., Lt., Assistant Professor of Military Science.
 EIKELBERGER, W. R., A. B., M. S., Instructor in Mathematics.
 ELLISON, S., A. B., M. A., Instructor in Geology.
 FARQUHARSON, D., Business Manager and Secretary of Executive Committee.
 FEIND, E. E., B. S., M. D., Student Health Director.
 FISHER, D. F., B. S., M. S. in Mech. Engr., Instructor in Mechanics.
 FORBES, C. R., B. S., E. M., Professor of Mining.
 FRAME, F. H., A. B., E. E., Professor of Electrical Engineering.
 GEVECKER, V. A. C., B. S., M. S., Instructor in Civil Engineering.

 WEBB, W. H., B. S., M. S., Instructor in Chemical Engineering.
 WILLIAMS, R. Z., B. S. in Met., B. S. in C. E., M. S. in Mech. Engr., Associate Professor of Mechanics.
 WOODMAN, L. E., A. B., A. M., Ph. D., Professor of Physics.
 YATES, E. W., A. B., B. S., M. S. in Chem. Engr., Instructor in Chemical Engr.
 YOUNG, R. H., B. S. in Mech Engr., Associate Professor of Drawing and Descriptive Geometry.
 ZEUCH, W. C., B. S. in C. E., C. E., Associate Professor of Engineering, Drawing and Descriptive Geometry.

The Seniors' Story

SENIOR OFFICERS

President ----- W. D. LIES
Vice-President ----- M. PINGEL
Treasurer ----- C. WATTENBARGER
Secretary ----- WM. ALSMEYER

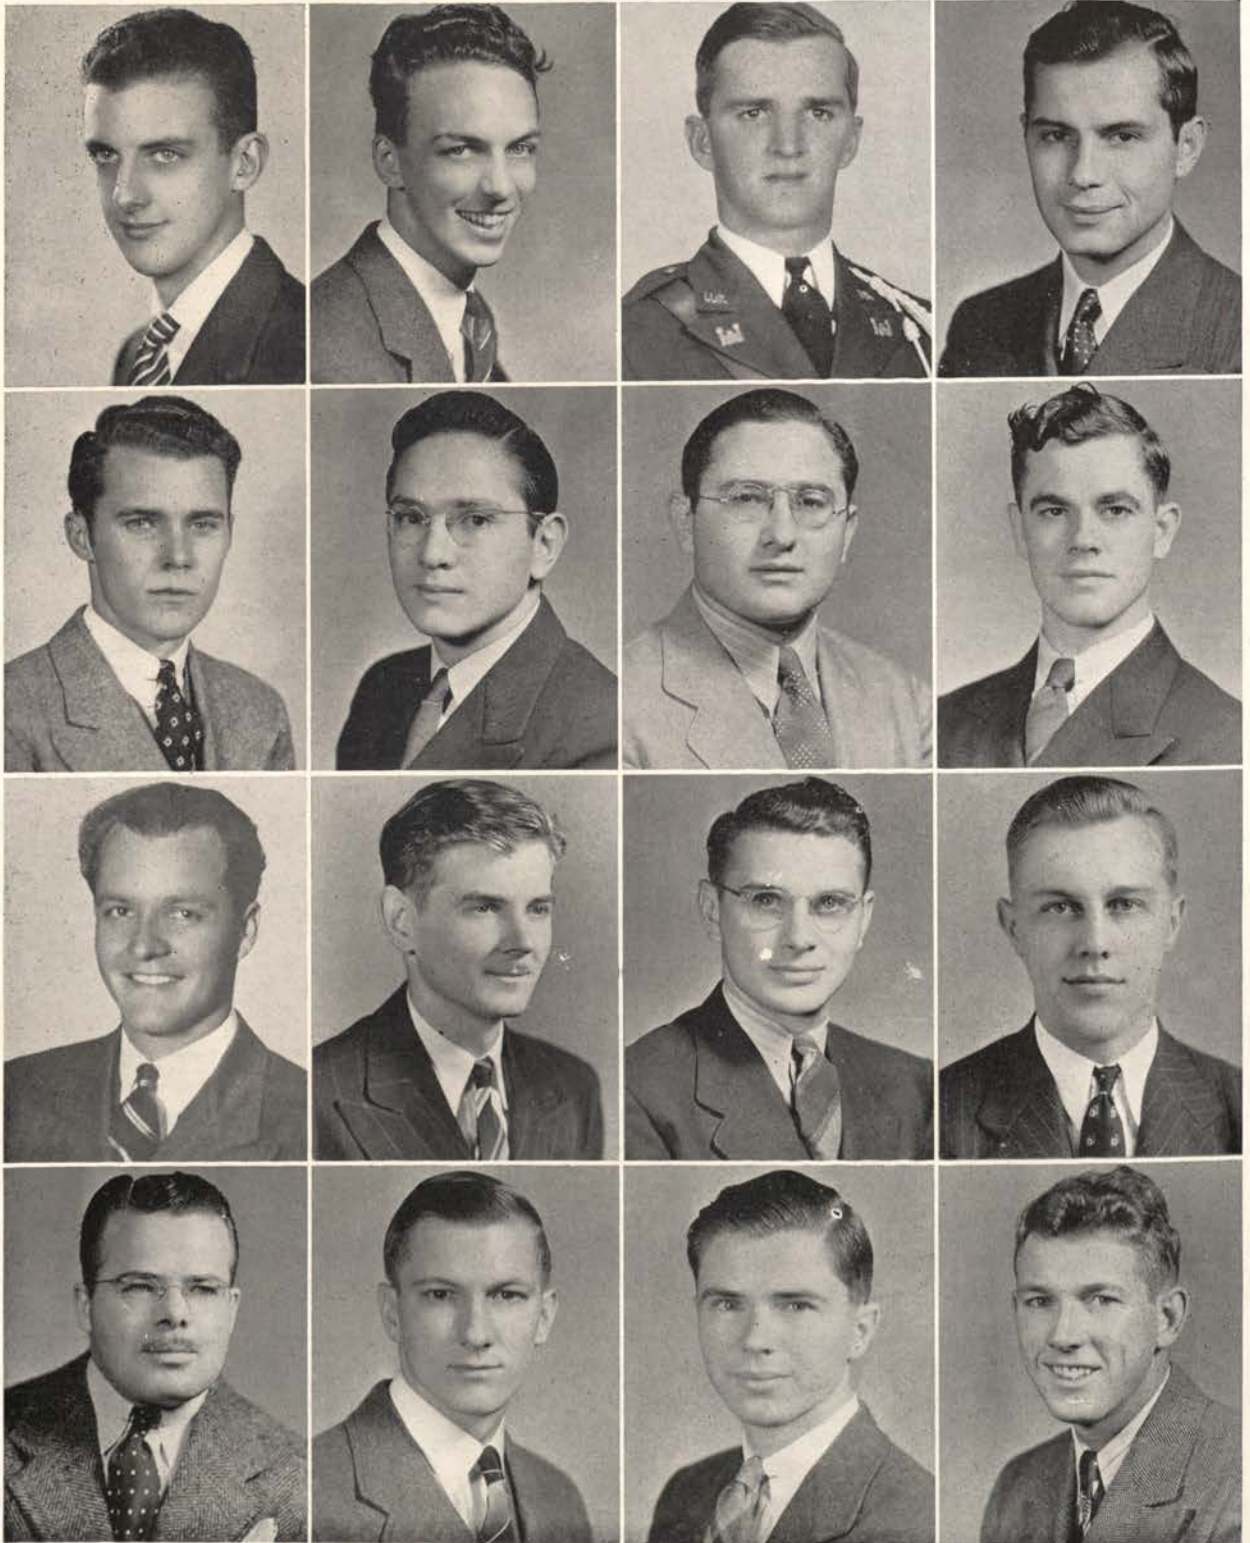

Seniors Story

After four memorable years of arduous though completely enjoyable studious endeavors, we have reached our goal and now must rearrange our activities to further our progress in our ambitious attempt to achieve the greater heights in professional life.

Regretfully we pass on to the cold and demanding life of industry, but let us say that though we separate to the very corners of the earth, we shall always be together in our feeling that M. S. M. has given us that indefinable entity for which we shall always be grateful.

Athletics

Although, unlike many schools, athletics are not subservient to the educational aspects of our school, M. S. M. teams have gained their share of athletic renown.

The coaching staff is to be congratulated for their excellent work, for the difficulties due to late classes have cut practice hours to a minimum. In spite of this, they have developed in their teams, teamwork and coordination that is an excellent tribute to their coaching skill.

Football

COACHING STAFF

Coach Gale Bullman (right) and Percy Gill have both been here four years. Each has done excellent work in turning out teams that have been truly sportsmanlike in every respect, and in making the football and basketball games attractive to the student body.

SEASON'S RESULTS

Arkansas	12	Miners	44
St. Louis	0	Miners	0
Maryville	0	Miners	25
Warrensburg	7	Miners	6
Springfield	27	Miners	7
Cape Girardeau	7	Miners	7
Kirksville	0	Miners	7
Washington U.	12	Miners	0

The Gridiron Greats

Orchids to Captain DICK CUNNINGHAM, who piloted the Miners through a season of football which drew more enthusiasm from the student body than any in our recent history. His seemingly untiring ball carrying, his outstanding kicking talent, and his ability to keep the confidence of his teammates won for him an esteemable place in the hearts of the coaching staff, the team, and the student body. We bid farewell to one of the most loyal supporters M. S. M. has ever known.

PAUL FULLOP, a hard-running, hard to catch, and hard to hit halfback, chalked up the majority of the season's touchdowns for the Miners, totaling five in all. His spectacular ball-carrying, and line plunging made him popular with the students and team, and he promises to be one of next year's most valuable players.

By his excellent work at guard, and by kicking extra points, FRANK ROGERS made himself an invaluable asset to the squad. Opposing teams knew him as one of the most capable offensive players in the conference, and his season was crowned by selection to the M. I. A. A. all-star squad, and to the all-star squad of the State of Missouri, in the Missouri-Kansas game.

JOE STRAWHUN, towering end, made it tough for opposing teams to gain much ground by carrying the ball through his portion of the field. He lettered in football three years, and was honored by being selected to the Missouri all-star team.

NELSON KOERNER, more popularly called sea-biscuit because of his flashing speed, came through his third year at guard, and was selected to the Missouri all-star team with Cunningham, Rogers, and Strawhun. He and Rogers on either side of center made many a hole in opposing lines for the ball carriers to slip through.

ART SCHUMACHER, tricky, fleet-footed halfback, carried the ball in conjunction with Cunningham through many minutes of play. His gains were indispensable to the squad, and his inter-

(captain)

R. H. — Paul Fullop

(Art Schumacher)

F. B. — Keith Cook

The Gridiron Greats

ference first-rate. From past laurels we can predict another year of star-playing from quiet, serious-minded Art.

BOB BRUCE, quarterback, besides furnishing interference for ball-toters, made a hobby of catching punts and stealing back half the opposing kicker's gain.

FRED HANCOCK, shifty and evasive, shared the quarterback position with Bruce, and equaled his alternate's prowess in shaking tacklers and running punts.

KEITH COOK, fullback, most adept passer in the Miner lineup, and a formidable runner, has given three years of hard playing to the Miner squad. Well built, and a jolly good fellow, he is liked by everybody, and we're counting on him for another year of star playing.

BOB NEVINS, playing at end was always the one to get clear and catch a pass when it was needed most. Without his receivership the Miners would have completely lacked aerial ability.

NICK NICOLA held the end slot in conjunction with Nevins, and kept opponents worried with his line rushes. He brought down end runs consistent-

ly, and knocked down passes with clock-like precision.

WAYNE BENNETSEN, one of the few who can make honor fraternities, manage the edition of a student newspaper, and play football at the same time held the guard position jointly with Frank Rogers.

GENE VEALE, Koerner's alternate, showed plenty of blocking and interference this year and is expected to reach the top next season.

MEREDITH KIBURZ, spends his time shooting the pigskin from the pivot position, and did an exceptionally good job this year.

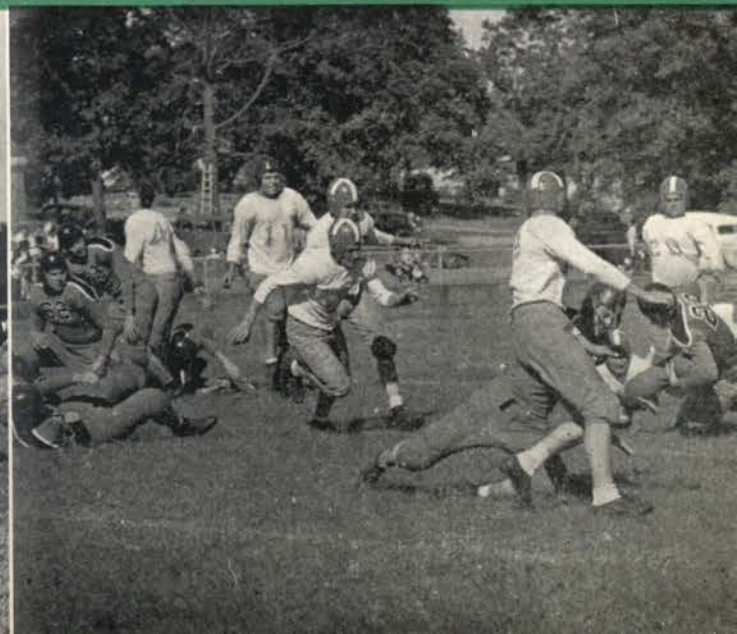

EARL KRUEGER showed plenty of power at tackle, and to all appearances will pack a stiff wallop next year.

"Fighting" ED KROMKA, a catapulting, devastating man of thunder, has probably seen the roughest going at tackle of any man on the team. At St. Louis U. he hit like T. N. T. and, although he was carried from the field after having played 55 minutes of the Homecoming game, he was back in line again after one week. He is captain-elect of next year's squad.

Dick Takes It Around The End

Corneau Runs Into Difficulties

The Season's Summary

With a clear September day, a fast field, and a crowd of about 1500 to cheer them on, the Miners started the season with a shotgun 44 to 12 victory over Arkansas State College. Cunningham, Eads, Cook, and Fullop all showed outstanding style carrying the ball, and a solid line made it doubly hard for Arkansas to put up an offensive. The opponents made very few gains by carrying the ball, but scored 12 points by some well executed passes.

Coach Bullman proclaimed the Miners ready for St. Louis U.

Stand up and cheer! Undefeated and untied by the Miners for seven years, St. Louis failed to score in a rough battle which was fought at Walsh stadium, and which ended in a 0-0 tie. Although the Miners were outbooted, out-passed, and outweighed 10 pounds per man, and in spite of the fact that the Billikens drove the ball

to the Miner's one-yard line twice during the game, the sturdy Silver and Gold eleven kept up its courage and held St. Louis scoreless. The game stands as a moral victory for M. S. M.

Unbeaten for 21 consecutive games, and confident of victory, the Maryville Bearcats swayed before a driving Miner squad 25-0. Fullop's excellent work in the backfield gained two touchdowns, and the squad functioned excellently. At M. S. M. the students greeted the news by declaring a "mass cut" and a pep rally for the following Monday.

The Warrensburg Mules handed the Miners their first defeat of the season in a hard-fought game held here October 18. Scoring early on a Miner fumble, the Mules maintained their lead with difficulty for three quarters and nearly lost it when Cunningham broke loose and made a sensational run of 70 yards for a touchdown. The extra

Warrensburg	2	3	.400
Cape Girardeau	1	3	.250
Kirksville	1	4	.200

The Season's Summary

point failed, however, and we bowed 7-6.

At Springfield, the Miners met their old rival, and started off a game that seemed like certain victory, but which ended in a four touchdown scoring streak for the Bears. Fullop again made the only score for the Miners by electing to run after preparing to pass and failing to find a receiver. The Bear eleven failed to score until the last quarter, but managed to cross the Miner line four times in the last 15 minutes of play, handing us a 27-7 trouncing.

Captain Cunningham opened a rainy Homecoming game against the invading Cape Girardeau Indians by returning the opening kickoff 85 yards through the mud to score a touchdown. Later in the quarter, the Indians evened the score by completing a pass to the Miner goal line. The remainder of the game was played in the center of the field except for the last 5 minutes when Cape's Indians drove to within one

yard of the Miner line. They were held for three downs, and were foiled by Big Joe Strawhun, when he blocked their try for a field goal.

For the last conference game of the year the Miner warriors met the Kirksville Bulldogs on a neutral field at Hannibal, Mo., and came back victors of a 7-0 tilt. Passwork between Cunningham and Nevins netted the only score of the game, a strong wind and a low temperature making it hard for either team to play its best. The Miner gridders finished third in the M. I. A. A. race with 2 losses, 2 wins, and a tie.

Washington U. showed its superiority over the Miners by a series of aerial attacks, and end runs which gained them a 12-0 victory in another rainy day game in St. Louis. Fighting hard in spite of rain and mud, the Miners did all they could to kick back Washington's gains, but were over-run by two touchdowns in the last quarter of the game.

THE "MOUSE TRAP" PLAY

The "mouse trap" play accounted for many yards during the Miners' 1940 season. In the Warrensburg game Dick Cunningham ran 79 yards to a touch-down, and in the Maryville game Paul Fullop raced 55 yards to score, both using this play.

The Miners use a balanced line, with a box formation. The center passes the ball to the half-back, who makes a half-spin, fakes the ball to the full-back, and crosses behind him. Here is where the "mouse trap" comes in. The defensive guard is allowed to charge in for the man with the ball, but is trapped and blocked out by the quarter-back. The half-back with the ball then spins back, driving over the center of the line.

Track

WITH THE MEN OF THE CINDER PATH

With only three lettermen back in school the Miner track team suffered a severe shortage of veterans this year. GaNun led the team in points and was followed at some margin by Pierce and Kalish. The relay team was in excellent shape, Bush, GaNun, Pierce, and Kalish consistently carrying the baton to victory.

• Those who received letters this year and their events were: Joe Bush, relay; Paul Bouchier, javelin; Cliff Corneau, low

hurdles; Nelson GaNun, 880, mile, and relay; Harold Haas, pole vault; Herbert Kalish, 880 and relay; Joe LaBarge, low hurdles and 100; Anton Leone, discus; Charles Mitchell, sprints; Ira Perkins, broad jump; Tom Pierce, 440 and relay; Leo Spinner, high jump; and Neal Woods, shot put. Bill Brown, Duke Blair, Norman Batterman, Bob Kendall, Arthur Peterson, Bill Mengal, Otto Self, Arthur Hessman, Joe Van Pool, Allan Fuchs, and Rex Hopkins are the new men on the team, and should supply a large group to choose from next year.

Take it, Pierce.

Rifle
Group.

Swimming
Squad.

GOLF

The varsity golf division was filled by Charley Clarkson, Mark Beard, Jack Nevin, Jim Nevin, Bob Westwater, Bob Sexton, Hugh Clark, Seymour Orlofsky, and "Nick" Nicholson. Clarkson and Beard played consistently well, both being lettermen from 1940, and staying below 80 in every match.

TENNIS

Lettermen on the tennis team were Bob Silhavy, Jack McKee, Jack Henderson, Jack Fleischli, and Ken Mooney. New men were Elmer Aschemeyer, James Bradley, John Dunn, Ray Thias, Jim Heddell, and Dave Hoff.

The failure of several lettermen to come out was a severe handicap to the team. Mooney, Bradley, and Dunn showed the best form, and there is a promising squad for next year. The team beat Arkansas State, tied Westminster, and lost to Springfield and Cape Girardeau.

RIFLE TEAM

The Varsity Rifle Team had a very successful season winning 21 out of their 23 matches. They were defeated once and lost the other match by forfeit. In Corps Area competition the team took third place. The nine team members from last year's team were the backbone of the team, while this year's recruits numbered ten. The fine team which has been developed with its enviable record certainly is a credit to the coaching ability of Sgt. Bertram.

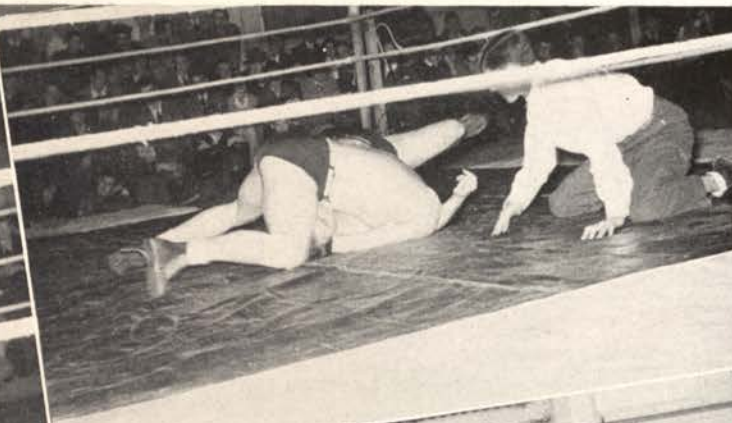

SWIMMING

The swimming team, coached by Silverman was one of the best of its kind in the mid-west. It was made up of Andy Cochran (c), Ted Hadley, Richard Brackett, Ralph Brouk, Earl Bierman, Roland Burberry, Richard Schaum, Fred Hancock, and Ralph Neumeyer. Brouk was undoubtedly the best swimmer on the team. He swam in breast stroke and free style events, and holds records in the M. S. M., Jefferson City Junior College, and Westminster pools. Berndt also showed up remarkably well. He swam the 440 yard race, the hardest and most gruelling event. Cochran and Hadley brough home points from the back stroke events, and Bierman and Brackett were successful in the free style races. Hancock and Shockley figured in the breast stroke division, and diving was handled by Hancock, Burberry and Schaum.

Ooomph!

Almost, not quite.

Intramural Sports

This year more students have competed in the intramural events than ever before. Out of the 903 students in school, 498 entered into the program, giving a total of 1142 entries. The athletic department presented 100 individual medals, 6 trophies, and a large cup to the winning organization.

Both the Pi. K. A. boys and the juniors rated high in the team competitions. Summaries of the scores are as follows:

Event	Winner
Touch Football -----	Pi. K. A.
Table Tennis -----	Pi. K. A. (Silhavy and Fleischli)
Cross Country Run -----	Pi. K. A. (Westwater)
Basketball -----	Sophomores
Handball -----	Junior team; Nicola, individual
Wrestling -----	Juniors
Boxing -----	Pi. K. A.
Swimming -----	Kappa Sigma
Golf -----	Pi. K. A.; Westwater, individual

Volleyball, track, tennis, softball, and horseshoes are not included in these scores.

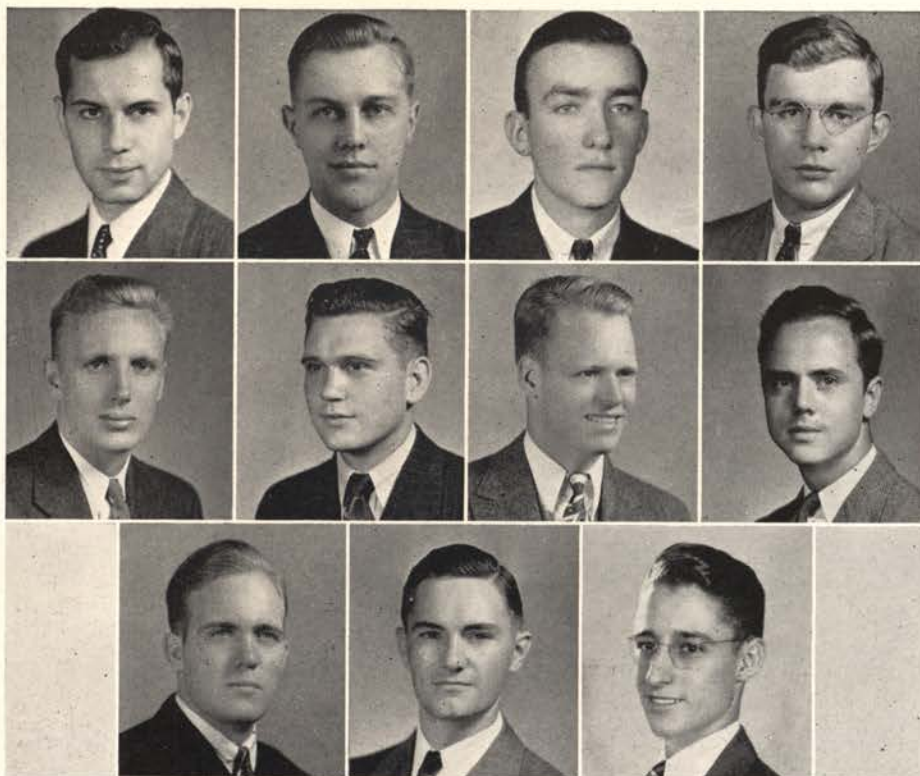

Campus Activities

Extra-curricular activities are a vital constituent in any college program. The relaxation and friendly companionship enjoyed in these assemblings provide some of the most enjoyable periods in college life and furnish a source of administrative experience not found in the classroom.

Phi Kappa Phi

Among the various honor societies on the M. S. M. campus, Phi Kappa Phi has the distinction of being the most coveted. Basing its entrance requirements upon high scholarship, exceptional character, and service, it accepts only men who have developed to a high degree the various qualities essential to the true scholar. Membership is limited to the upper ten per cent of the graduating class.

The M. S. M. chapter was founded in 1920, and for the past twenty years has steadily served as an incentive to the students for more efficient and thorough pursuit of their studies.

The chapter annually awards bookplates to the upper fifteen per cent of each class.

Tau Beta Pi

Tau Beta Pi was founded at Lehigh University in 1885. The factors considered in selecting men for membership are the following: scholarship, character, leadership, social qualities, and personal appearance.

The Beta Chapter of Missouri was founded at the Missouri School of Mines in December, 1906. Since that time it has risen to become the highest ranking honorary engineering fraternity on the campus.

Blue Key

Blue Key is a national, honorary, non-social fraternity. The Missouri School of Mines chapter of the National Blue Key Honor Fraternity selects its membership from those of the Junior and Senior classes who have shown outstanding qualities of leadership and a willingness to work for the betterment of the school.

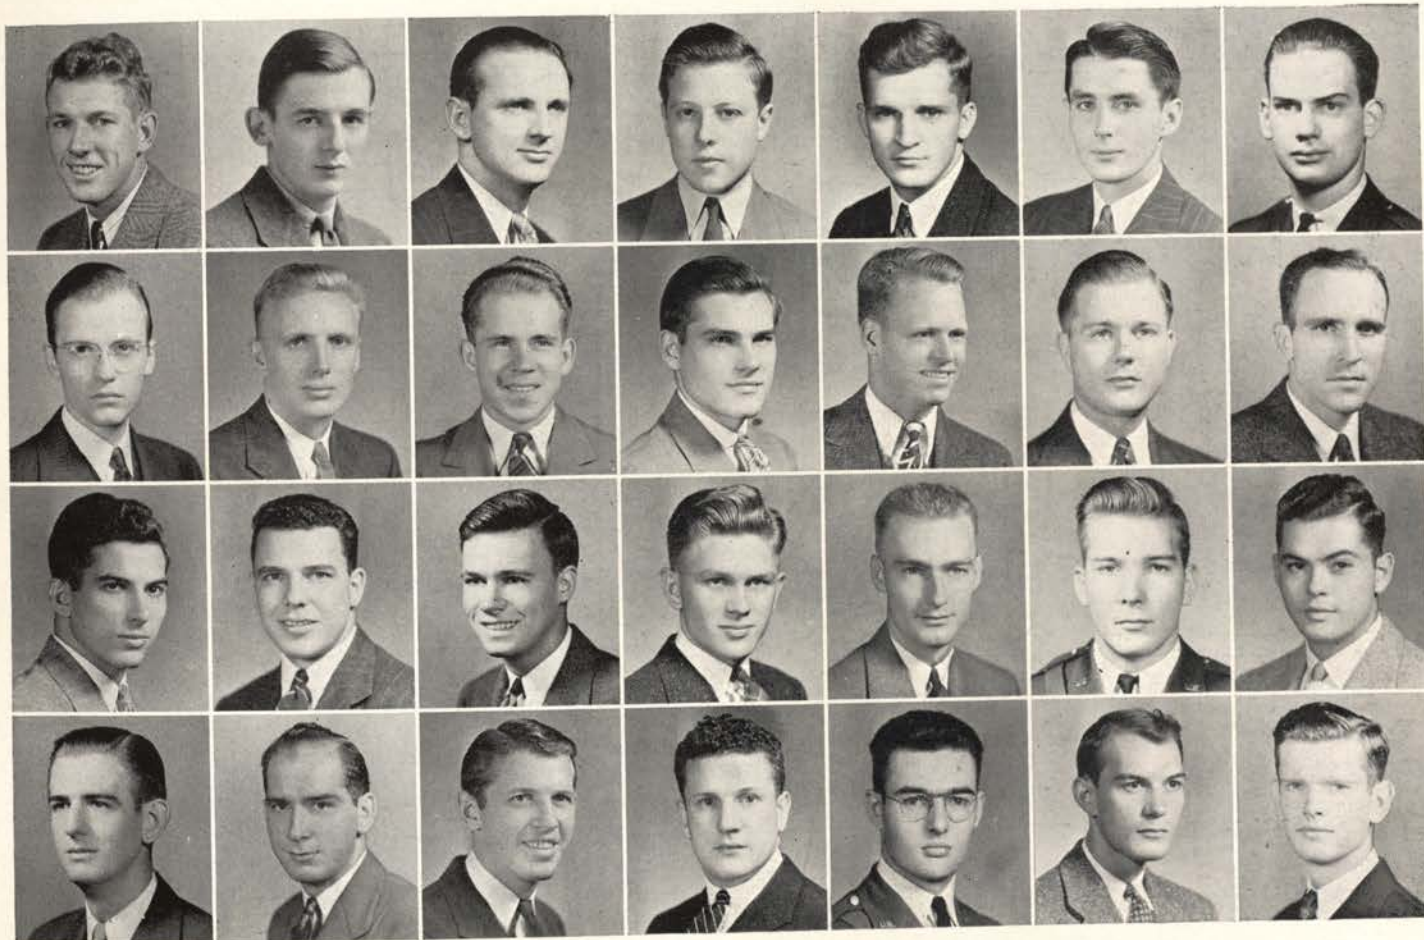

The cardinal principle of Blue Key is service. Its services include: the printing of sports programs, compiling of student directories, promotion of campus activities, and other similar services which move for a greater school spirit. All of these and more, have the energetic action of this honor society since its formation on the campus of the School of Mines in 1933.

Theta Tau

Founded at the University of Minnesota, October 15, 1904, Theta Tau has twenty-three chapters of which Iota Chapter at the Missouri School of Mines was the eighth to be chartered. The present chapter was established February 5, 1916. Theta Tau is a national professional engineering fraternity, not a honorary fraternity. Its membership is chosen from those considered to have superior engineering ability.

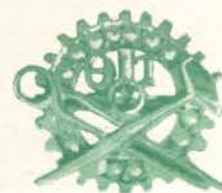

It is the purpose of Theta Tau to promote and maintain a high standard of professional interest among its members.

Alpha Chi Sigma

The Alpha Chi Sigma chemical fraternity was formed in 1902 at the University of Wisconsin. The growth of the fraternity has been rapid and it now numbers forty-six undergraduate chapters, seventeen professional chapters, and eight professional groups. The M. S. M. chapter, Beta Delta, was formed in 1936 and its growth has been rapid also.

The objects of the fraternity are: to bind its members in a tie of true and lasting friendship; to strive for the advancement of chemistry both as a science and a profession; to aid its members by every possible means in the attainment of their ambitions as chemists.

Alpha Phi Omega

Beta Omicron Chapter of Alpha Phi Omega was founded on the campus of Missouri School of Mines in the spring of 1939. Alpha Phi Omega accepts as members any student who has at any time received training with boy scout organizations.

In keeping with the purposes of its national organization founded at the Lafayette University in 1925, the fraternity aims to assemble college men in fellowship of the Scout Oath and Law to develop friendship, and to promote service to humanity.

The local Post of the Society of America Military Engineers was established in the fall of 1937. Its purpose is to further the interests of the Society and to sponsor the annual Military Ball.

The Society of American Military Engineers had its inception in the World War and was incorporated in 1920 in the District of Columbia. It was established for the purpose of furthering national defense and of linking more closely civilian and military engineers.

R. O. T. C.

The Engineer unit of the R. O. T. C. was established at the School of Mines in March, 1919, its primary mission being the procurement and training of young men who will enter the reserves of the Army of the United States to serve in case of national emergency as officers in that branch of the service to which they are best adapted.

Last spring the regiment was again rated as an honor regiment as a result of the government inspection. At present there are about 400 students in the basic courses and 60 in the advanced course.

The Cadet Colonel for this year has been Armin P. Fick.

American Society of Ceramic Engineers

In 1937 the local Orten Society, comprising the students in Ceramic Engineering, became the Missouri School of Mines Student Branch of the American Society of Ceramic Engineers. The society sponsors meetings at which motion pictures descriptive of the Ceramic Industry are shown and interesting talks are made by prominent men of the field. Its purpose is to bring the members of the curriculum into a closer bond of fellowship and to bring others interested in the industry in closer contact with it.

American Institute of Chemical Engineers

In 1939 the Missouri School of Mines chapter of the Ira Remson Society was granted a charter in the American Institute of Chemical Engineers.

The object of the organization is to stimulate an interest in chemical engineering and to afford each student an opportunity to present to the group any experience that he may have had in summer practice.

The meetings are held twice a month and occasionally men of prominence in science and industry are invited to address the society.

American Institute of Electrical Engineers

In March, 1925, the student branch of the American Institute of Electrical Engineers was established on the Missouri School of Mines campus.

The club holds meetings throughout the year where talks are given to foster interest in the profession and provide each member an opportunity to express himself before the group. Short talks by men in the profession also acquaint the students with the practical side of engineering which is so important when he leaves school to become part of the industry.

American Institute of Mining and Metallurgical Engineers

The student branch of the American Institute of Mining and Metallurgical Engineers was established to unite the members of the mining and metallurgy departments in order that they might discuss current problems pertaining to their field.

This is accomplished by bringing prominent speakers from various fields before the group and by student talks on their summer positions and experiences. Valuable information is also obtained from the national society through the medium of their monthly journal.

American Society of Civil Engineers

The American Society of Civil Engineers of the Missouri School of Mines was organized with the aid of Professor J. B. Butler in 1923.

The purpose of the Society is to afford means by which the Civil Engineering students will be able to acquire a knowledge of their field work from sources other than the class room. Membership is open to Sophomores, Juniors, and Seniors enrolled in Civil Engineering.

American Society of Mechanical Engineers

The American Society of Mechanical Engineers was founded in 1880, and the Missouri School of Mines branch was organized in the spring of 1930 by Dr. A. J. Miles.

The purpose of the association is to promote the art and science of mechanical engineering by acquainting the members with the practical and theoretical sides of engineering. This purpose is accomplished by having men of prominence in science and industry address the society at its meetings.

Members are offered opportunity for valuable experience in expressing themselves in technical topics by presentation of technical papers.

Student Council

The Student Council of the Missouri School of Mines was founded in 1937. The Council is composed of eighteen members, of which nine are representatives from the nine social fraternities on the campus and the remaining nine representatives of the Independents.

The object of the Student Council is to form a mutual relationship between the students and the faculty and to maintain a just form of student government. As a step to maintain this relationship, the council appoints the Rollamo and Miner Board of Control, Intramural Board of Control, St. Pat's Board of Control, Dance Date Committee, and the General Lecture Committee. These committees exercise supervisory position over their respective activities.

St. Pat's Board

Established in 1930, the St. Pat's Board consists of two representatives from each Fraternity and four from the independents.

The Board is appointed each year to make arrangements for the three days celebration which pays homage to the Patron Saint of Engineering, St. Pat.

Throughout the year the Board gives several dances for the entertainment of the student body and also to raise funds for St. Pat's proper.

The St. Pat's Board has done much to make our St. Pat's celebration one of the most unique affairs in the country.

Independents

In 1935 the non-Fraternity men on the M. S. M. Campus organized "The Independents." The object of this organization, as outlined in its constitution, is to organize the non-fraternity men so they can better participate in the various athletic, social and other activities on this campus. The organization was designed to meet the needs of that large group of men who would have no other means of participation in campus activities.

All students, who are not members of social fraternities on the M. S. M. Campus, are eligible for membership, and will become active members upon the payment of their annual dues. The Independents sponsor two dances each year, given at the Gymnasium, to which all students are invited. Its members are actively engaged in all of the various intramural sports and social activities on the campus.

The 1941 Rollamo

The Rollamo board has as its sole purpose the composing and publishing of the Rollamo. The board is composed of students who are deemed capable of producing a year book worthy of M. S. M.

Election to the Rollamo board can only be obtained through meritorious service on the part of the "tryout". Each "tryout" is graded on material as to quantity and quality and elected if his work meets the approval of the editors.

The Rollamo board sincerely hopes that each of you will enjoy the '41 Rollamo as much as we have enjoyed presenting it to you.

The 1940-41 Miner Board

The Missouri Miner is a newspaper published twice a week entirely by students of the Missouri School of Mines. A new and apparently successful venture in the history of the paper was undertaken this year. Heretofore it was a weekly paper; this year it was published twice weekly.

Its purpose is to act as a medium for the dissemination of news and to work for the advancement of the school by the promotion of goodwill among students, faculty, and organizations.

Officers and new members are elected each spring by members of the board.

The Shamrock Club

In March of 1938 a group of students organized what was then known as the M. S. M. Forum, for the purpose of obtaining satisfactory meals at a more economical figure. This organization, its original name changed to "The Shamrock Club", still exists on the campus.

The club not only provides a high standard of living for its members, but also promotes interest in school activities.

The organization is ruled by a six-man board-of-control which selects new members on a basis of their personality and activities.

The Varsity Orchestra

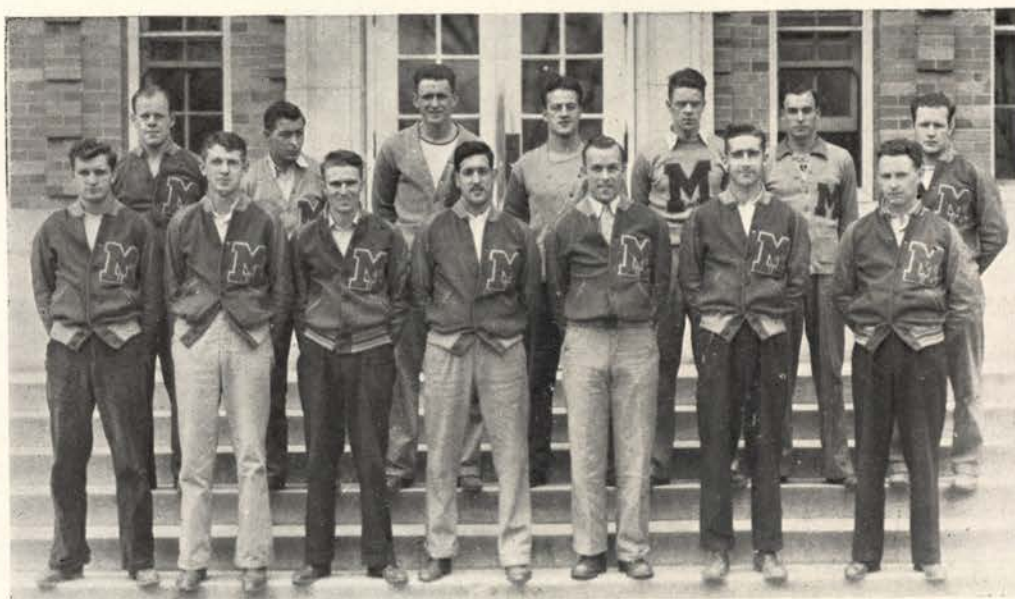

The M. S. M. Varsity Orchestra functions on the campus primarily as a cooperative organization. The past two years has seen the band develop into one which any person would enjoy dancing to. The "Varsity", as it is called, provides the swing music at M. S. M. for the majority of the school and fraternity dances.

The rhythm, the nucleus of any good swing band, is centered around drummer Vernon Johnson. Matching Vernon but "driving" the bull fiddle is Bob Stowell. To round out this section we find Eric Casey playing the piano.

In the brass section we have Nelson GaNun, now leader of the orchestra, playing first trumpet and doing a mighty fine job of it, too. Kenny "Stretch" Meyer and Jerry Higley show the really hot choruses. The slide trombone is handled in great style by Louis Cambell who renders those easy on the ear sobs and Chuck Faulkner who does a fine job on the second trombone. Combined, these boys form a brass section that M. S. M. can be proud of.

Jimmie Katz, Bob Smith, Dick Wheat, and John Ritchie compose the sax section. Each of these fellows is a master of his trade and does justice to the music of the "Varsity".

The orchestra as a result of hard work has developed into one of the best dance bands in this section and should go places in the near future.

"M" Club

The "M" club was founded in 1939, with its objects being to raise the sportsmanship of the Missouri School of Mines and to create a better spirit among the athletic teams. The members encourage more men to partake in the sports of our school and lend assistance in any of the athletic contests. The major qualification of membership is to letter in any conference sport.

The Interfraternity Council

The Interfraternity Council as the name implies is a council of two representatives from each of the social fraternities on the campus. The function of this group is to promote harmony and goodwill between the members of the different organizations and to further their interest on the campus.

The council arranges for the Interfraternity Dance each year and plans the social rushing, and athletic functions of the fraternities of M. S. M.

Pi Delta Chi Sorority

Alpha Chapter: Founded October, 1940

The Co-Eds of M. S. M. organized for the first time in 1939; they formed the Rollamo Co-Eds. They were under the guidance of Mrs. W. T. Schrenk, Dean of Women, who was faculty advisor of the club the rest of the year. At the beginning of this year the girls decided that they would form a sorority; again under the guidance of Mrs. W. T. Schrenk, they drew up the charter of the first chapter of Phi Delta Chi.

Campus Life

In these pages you will find a review of the year's events in both word and picture. These represent some of the lighter and more relaxing moments of an academic career.

Thru the years...

SEPTEMBER

Class of '44 arrives in Rolla.
 K. S. members arrive on train
 with Class of '44.
 Harris Hall almost completed.
 Blue Key starts directory.
 Enrollment hits new high —
 Armsby hits new low.
 Sophomores pass tobacco to
 freshmen.
 Freshmen pass out.
 Townspeople protest against de-
 pantsing.
 Freshmen protest against Sopho-
 more barbers.
 Sophomores take out barber's li-
 cense.
 Miners beat Arkansas — Miners
 BEAT Arkansas.
 Dell Wade upholds Senior tradi-
 tion of hirsute growth.
 Sigma Pi's pledge freshmen.
 Sigma Pi's return borrowed radio.
 Co-ed Cheerleaders draw capa-
 city crowds.
 Rush to complete new Chem.
 Bldg. — five men work till 4:30
 instead of 4:00.

OCTOBER

First free show for a nickel.
 Student body travels en masse to see Miner-Billiken game.
 Moral victory for Miners, 0-0.
 Police tell Falkingham not to drink on grounds.
 Falkingham tells police, "it's too late now".
 Second free show for a nickel.
 Students register for Selective Service.
 Parents Day a huge success.
 MINER takes 10% (10 people) cross section of school's political standing.
 "MINER says to Willkie" — "Willkie says to MINER".
 Faculty says to MINER.
 MINER announces non-partisan policy.

NOVEMBER

Miners meet Springfield Bears.
 No free show for a nickel.
 School dedicates Homecoming to Class of '15.
 Alumni dedicate empty bottles to school.
 Senior "Mets" complain about grades.

Clayton advises senior "Mets" to buy textbooks.

Midsemester grades go home — Students stay in Rolla.

Cunningham to Nevins pass gives us 7-0 win over Kirksville.

Fourth free show for a nickel.

Berutt buys new car.

Roosevelt finally decides on date of Thanksgiving.

Miners place third in M. I. A. A. race.

Chemistry department approved by A. C. S.

DECEMBER

Faculty member claims that recognition of Chem. Dept. was probably by pipefitters union.

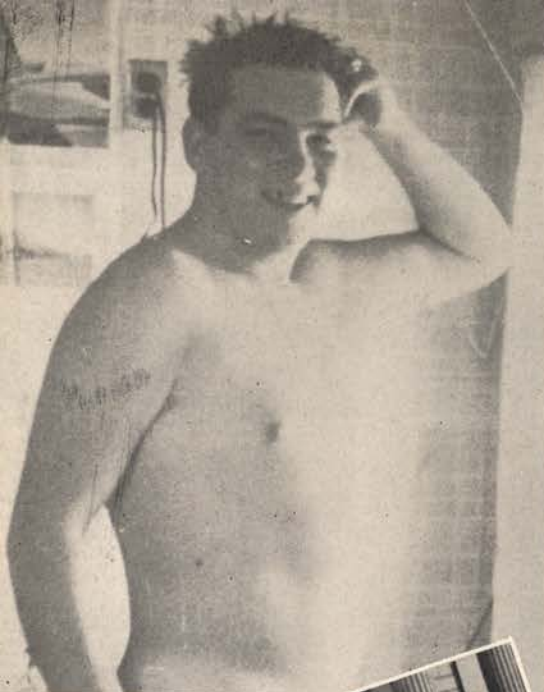

School displays its usual good manners at Alpha Psi Omega's play.

Alpha Psi Omega decides, tain't worth while.

St. Pat's Board members start meeting in private.

Santa Claus visits Miners—Miners gone home.
 Short month.

JANUARY

Miners come back with headache, run into another — final exams.

Lawler reports on activities at Blue Key Convention in K. C.

Convention reports Lawler to local chapter.

MINER Scoop: "Nelle Koerner Once Kissed by Queen of Belgium."

Flue epidemic hits school.

Army camp comes to Rolla.

Profs. give finals — Students give up.

Gibbons finally graduates.

DeForest passes E. E. — with a 20.

Pi K A's have trouble with Stephen's authorities.

Doc Maise retires to industry.

New semester starts.

Same old story — everybody swears to quit this foolin' around and settle down to some steady studyin'.

FEBRUARY

Schill loses date and faith in women.

Military Ball gives Miners excuse to "get on the Ball".

St. Pat's Board comes out of its two month huddle.

St. Pat's Board announces Lucille Stimson as Queen of Love, Beauty, and Politics.

Army Camp construction well under way.

Townpeople rent rooms to camp-workers — Students sleep in basement.

Prof. Lovett receives Valentine.

MARCH

"Taw Bait" pledges the wrong men—as usual.
Romance on the campus, Spenko—McArdle engaged.

St. Pat's finally arrives.

Jennings is told what a swell time he had.

Postoffice works overtime delivering "Specials"

Busse goes promptly to bed every nite — how dull.

MINER gets excited over St. Pat's — prints two issues dated 3-8-'41.

Student Council can't decide whether to buy sweaters or keys.

First half of Chem. Bldg. finally completed.

Students march on Jeff. City and petition Governor for dormitory.

APRIL

Middlebush announces Chedsey's resignation.
Society for Advancement of M. S. M. asks for Middlebush's resignation.

M. S. M. receives national publicity.

St. Pat's Board goes into huddle again.

Kirkpatrick new St. Pat's Board President.

Chem. Bldg. dedicated.

Legislators visit M. S. M.—Middlebush couldn't be convinced that Fire Assaying is not commercial method for Au extraction.

Spring arrives — McGowan takes her out every nite.

Senior Chems. take annual trip to St. Louis.

Senior Chems. pour Dorsey into bottle and bring him back.

Finally — At Last — ROLLAMO GOES TO PRESS.

St. Pat's

A MINER'S DREAM COME TRUE

Once a year, every year, a celebration comes to Rolla that makes every engineer happy for the remaining school year. Long reports, shotgun quizzes, final exams, and midsemester grades all fade into the yesteryear and any true blue miner will tell you that St. Pat's is worth every bit of the hard work he has put in. With a song in his heart and a spring in his step, Joe Miner puts aside his slide rule and his text books, and prepares to enjoy himself for this all too short three day holiday in the Month of March.

Today St. Pat's is a tradition at the Missouri School of Mines but it was not always so. The University of Missouri played a prominent part toward the establishment and growth of this annual campus event. For 38 years St. Patrick's Day passed unobserved and unheralded on the M. S. M. campus. Of course, everyone knew St. Patrick was the Engineer's patron Saint, but still no move was made toward any type of celebration.

Finally in March, 1908, some of our fellow engineers stationed at Columbia, extended an invitation to participate in their celebration. Since our school was small at that time and very thinly populated, the students elected to choose a representative and to help pay expenses through a collection. When all petty details were made clear, the collection was conducted and at last the school was to find out something about St. Patrick's Day.

Records do not tell whether our crusader was a full blooded Scotchman, or whether he received a lot of free hospitality but strange as it may seem he returned with a goodly portion of his expense money still intact.

With the return of the envoy in his surprising financial condition came the suggestion that we too might have some sort of a celebration. So that night, March 16, a number of our more resourceful students met with some of our more artistic ones and the following day signs appeared throughout the campus, declaring March 17 a holiday.

Since most engineers can read and write, the idea lost no time in gaining a healthy following and bringing the desired result. As directed, the entire student body appeared at the depot, supplied to a man with green sashes, green ties, and shillalahs.

JACK LYONS

St. Patrick and His Queen

The students lined up with seniors in the front and freshmen in the rear and paraded through the town, stopping in front of Norwood Hall. Here our newly found leader, now known as St. Patrick, surveyed the quadrangle with his transit (a beer bottle mounted on a forked stick) before allowing a soul to set foot upon the soil. Satisfied, he gave the signal and immediately the area was teeming with potential engineers.

The steps of Norwood Hall became the setting for St. Patrick's first court, and he and his assistants promptly settled themselves to conduct the ceremony. Seniors were made "Knights of the Order of St. Patrick" after kissing the Blarney Stone, which curiously resembled a prominent part of the human anatomy. A speech delivered by St. Patrick, himself, concerning the hieroglyphics on the Blarney Stone proved beyond a doubt that St. Patrick was indeed the first engineer, and was therefore to be regarded as our true patron saint.

It was with a feeling of pride that the little band turned their steps homeward at the conclusion of that speech. Thus because of spirit shown by our predecessors 33 years ago, this day has grown to St. Pat's of today with all its color and splendor. Is it any wonder that we students at M. S. M. await with anxiety the coming of this day and point out with pride that it is now one of the finest St. Pat's celebrations in the country.

Regal Splendor

With the coming of the thirty-third annual St. Pat's his loyal Squires set aside their books and slide rules to pay tribute to that paragon of Engineers, St. Patrick. This years' story of fun and frolic began as usual with the arrival of an unusual number of beauteous lassies from both near and far to help the Miners on their three day celebration.

The festivities began on Thursday evening with an informal dance given by the Independents from 8:00 until 12:00 with the Varsity Orchestra supplying the dancing strains. At the witching hour Charlie Armstead and his band took over and played until the wee sma' hours.

The venerable Saint and his guards arrived on his traditional handcar at the Frisco Station on Friday afternoon where he greeted his loyal subjects. St. Pat then led the procession to the auditorium of Parker Hall, where after a few timely remarks, he knighted the members of the graduating class.

Friday nite at the Costume Ball Henry Busse gave forth with his famous "Shufflin' Rhythm" and provided ample inspiration for the colorful assembly to dance. At the stroke of twelve, lovely Miss Lucille Stimson was crowned Queen of Love and Beauty by St. Patrick to reign over the Miners for the ensuing year.

Saturday afternoon and evening saw other activities such as the annual Sigma Nu Tea Dance at the Chapter House, and formal dinners and parties at many of the fraternity houses.

At long last came Saturday nite, and the Formal Ball. This was in sharp contrast to the Costume Ball of the previous evening what with tuxes, tails, and formals setting the style. As the last strains of Busse's music faded into their memories the joyful but tired crowd knew that another glorious St. Pat's had come to a happy ending. St. Pat's will come, and St. Pat's will go, but St. Pat's '41 will live forever in the minds of those who attended.

We, the 1941 ROLLAMO, wish to extend our sincere thanks and appreciation to Mr. Owen Marsh, and Bruce Cowan of Pontiac Engraving Co.; Mr. W. H. Kiehne of Missouriian Printing and Stationery Co.; and Mr. Roland Holl of Sid Whiting Studio for their generous assistance in editing and publishing this, your '41 ROLLAMO.

MASTER ENGRAVERS TO AMERICA'S SCHOOLS

An American

TRADITION

For more than half a century Pontiac has been producing QUALITY printing plates for all types of publication work and has established a reputation for dependable service which is unexcelled among photo-engravers. Everywhere Pontiac yearbook service men have become known for their friendly, helpful assistance and are recognized for their ability as specialists in the school publication field.

It has become "An American Tradition" for schools to select Pontiac as their engraver year after year, with the result that the number of annuals handled by Pontiac has steadily increased. Hundreds of these staffs have developed distinctive books with the assistance of Pontiac artists and have gained recognition for the originality and success of their publications.

The entire personnel of Pontiac Engraving & Electrotype Co. salute the publishers of this book for their splendid efforts in producing a fine yearbook. They invite other schools to join the thousands of satisfied Pontiac clients for assistance in the solution of their engraving problems.

Pontiac served as the Official Engraver to this book.
